

## IO - DCE - TB IO - DTE - TB

A screw terminal adapter which converts the DB25 connector of the OM10B or OM10C to screw terminal outputs. All DB25 pins (except 1, 18, and 25) come out to a screw terminal. The picture below shows the DCE and DTE versions.

This terminal block can be used with the following products.

- OM10B
- OM10C
- OM44
