

Interface OMI5B-BNC-ADAPTER

Balanced to Single Ended Adapter

This adapter is primarily intended for the EI mode of operation; it converts the balanced output of the OM-15B to a single ended BNC connector; this simplifies the EI cables. This adapter also makes the auxiliary RS232 and contact sense/closure channel available on screw terminal blocks. This adapter is used with following product.

- OM-15B

Part NumberOMI5B-BNC-ADAPTER
