

Mounting Panel MP6-P

This 1U high 19" rack mount panel holds up to six modems. The mounting plate is attached to the modem using the screws which hold the modem together. This is the MP-6 panel with an auxiliary power supply (LTIPS-6-2-U), harness and mounting hardware. This eliminates the clutter of having six separate power cubes. This panel mounts the following product.

- OMT8B

*NOTE: Filler plates (FP6) are available for any unused opening.

Dimensions (H*W).....1.75" x 19"
Previously called MP-OM100
