

## Mounting Plate MB05

MB05 mounting plate is shown below. The modem slides into the MB05 and is held in place with two thumb lock screws allowing the modem to be installed or removed without the use of tools. Ideally the MB05 is bolted to “earth” ground to give optimum lightning protection and minimum EMI. The modem can be installed with the rubber feet left on.

Specifications: W x H x L . . . . . 11.5 cm X 3.5 cm X 10 cm

This mounting plate holds the following products:

- OM1005
- OM1001J
- OM1002J
- EM-HDLC
- OM4-PoE
- OM10G
