

DIN-CLIP-5

This clip allows modems to be attached to 35mm or G-type DIN Rails
It may be used with the following Luxcom products:

- OM1G
- OM10GB
- OM101
- OM101E
- OM1000
- OM1000E
- OM1001E
- OMC1E

The holder is attached using the modem's screws for clam-shell cases. For the OM1G and OM10GB screws are supplied.
Only tighten these screws until they are snug.

Auxiliary screw holes allow the clip to be moved up or down allowing the modem to sit higher or lower on the DIN rail.

The fiber port may point up or down.

Part number: DIN-CLIP-5
